SILT AND MUCK MANY FEET MEASURE TO CARRY DEEP COVER BODIES LOST IN DISASTER

LOS ANGELES, March 15. — (AP)-Testimony produced at the first inquest of the St. Francis dam flood victims, held at Moor Park today indicated that a total of 285 bodies had been recovered In Los Angeles and Ventura counties, where all the deaths occurred. This figure, clashing with previous estimates, caused a sharp upward (gation committee reported the bil jump in the death toll.

The coroner's jury made no attempt to fix blame for the disaster, but brought in a straight verdict of "accidental drowning due to the breaking of the St. Francis

Bodies May Never Be Recovered. It appeared improbable that wreckage embedded odies a most dificult operation. countryside, making | strangers of towns that formerly were neighbors, rendered impossible the positive checking of bodies moved from one morgue

another. The tentative list of bodies in Morgues, compiled today from of- 🚍 and semi-oficial sources, E showed a total of 101.

In a number of instances only member of a family of five or more was reported alive, and searchers for the missing argued that the natural instinct of fam-'= ily groups to reunite would have = accounted for scores of such before now if those on the rolls of the missing were alive.

A burning sun and a dry wind from the low barren hills to the east seemed to have bleached out the miles and miles of silt which, almost at a wave of the hand of tate, replaced happy home yards and smart little orchards.

Everywhere over that long winding stretch to the sea were visible the marks made in the feverish pork of retrieving bodies. A hole dug here; a splintered plank dragout of the mire there; prints horses' hoofs everywhere, attested the thoroughness of yestermounted men each with pick and alodded in the heat and the dazding reflection from the whitening sands all through the day. Where the yellowish, sandy mush

was deepest, steam shovels were brought into play. Mules and pack horses did their part when bodies were found too far from passable roads for automobiles and trucks

SPECIAL TO HOUSTON.

The Corsicana Daily Sun will sponsor a special train to Houston. It is hoped to have at least 300 Corsicana and Navarro county residents on this special when it leaves the union station for the convention city.

Thousands of people will gather in Houston from every part of the United States to attend the national democratic gathering. All of the party leaders will be present and the men you read about in the papears every day will be there. Several hundred newspaper cor

respondents and magazine writers will cover the convention. Texas will receive hundreds of columns of constructive advertising. Texas will be in the limelight as never before and Corsicana and Navarro county want to occupy at least small place in the sun.

This is the first special to be announced in Texas. It will not only give the city and county some excellent publicity but in addition from will have the opportunity of seeing a national convention in fow of us have the opportunity of attending one. It is the chance of a lifetime. It is not probable any of us will live to see another Na tional Democratic convention held in Texas.

Ride the Daily Sun special to Houston. Make your reservation oarly. Details concerning the special will be announced as they ar worked out.

BRYAN'S GREATEST SERVICE

Correspondence between Secre thry Kellogg and the French amtrassador, M. Claudel, places on official record, that, as agreed on by both sides, the Bryan treaty of 1914 with France continues in full force and effect between the two countries, being in no way abrogated affected by the arbitration treaty just ratified by the senate. In accepting the new treaty without re servations the senate foreign rela tions committee did so on the understanding that such was the case. Unlike the Root arbitration streaties, which must be renewed revery five years, the Bryan treaties not require periodic re-assent continuing in full force until the expiration of a full year after one arbitration pacts, new or old, since younger generations. Sermons and day, the 7th day of April A. WALL OF WATER **SWEEPS DOWN UPON VALLEY COMMUNITY**

LOS ANGELES, March 13.-(AP)-At 10 o'clock this morning a recapitulation of loss of life in the St. Francis dam break disaster, based on word flashed here by official rescue chiefs, indicated that at least 110 persons died in the great flood which crashed through the broken dam just after midnight today.

LOS ANGELES, March 13 .-(AP)-An earthquake today turned the famous Los Angeles aqueduct into a giant of destruction, leaving a death toll estimated at 200 to 500 persons, an uncounted property damage when it broke the St. Francis dam in San Francisquito Canyon, 45 miles north of here, and sent a wall of water down upon a sleeping community. The dam, a part of the aqueduc system which carries water 200 miles through the desert to Los Angeles, gave way without warning, releasing 62,000 acre feet of water — 1,344,000,000 gallons upon an unsuspecting mountain residence and ranching community. An unknown number of persons, probably somewhere

tween 200 and 300, apparently were trapped between the canyon walls. Received by Borah They included about 25 families who made their homes below 15.— dam, a working camp of about 75 was no chance of escape for the

Stephens said, "and upon us who tions there rests a double responsibility for solving the problem, ecause we are women and second, because we are Christian

"International relations lished through educational spiritual contacts are more likely han any other influence to bring about peace and friendship tween peoples.

"Two enormous problems, national and one international in scope, are engaging the attention of the women of this country to an extent not reached before. Both need the thought and active assistance of church women. are law enforcement and peace."

SENATE TEAPOT DOME COMMITTEE **GOES TO CHICAGO**

Mar. CHICAGO. Schifting the scene of its inquiry rom the national capital to this city, the senatorial Teapot Dome sub-committee heard witnesses in rapid succession today, but obtained little, if any, information of importance relating to the use of Continuental Trading company liberty bonds in helping to extinguish the deficit of the republican national committee in 1923.

Edward Hines, wealthy lumber dealer, testified that he had not even contributed to the republican party chest in that year and never had been reimbursed for any of his gifts in other years. A similar statement

tained in a telegram from George M. Reynolds, chairman of the board of the Continental and Commercial National bank of Chicago, in which institution the republican national committee keeps some of its accounts. "I know nothing whatever about the Sinclair bonds," he telegraph

"I never saw or heard of any of those bonds." Appearing for William Wrigley, Jr., who also is in California, William H. Stanley testified that Wrigley had contributed money to the republican political fund 1920, 1922 and 1924, but that he never had been reimbursed for any of

hese contributions. Stanley testified that Wrigley recently had sold all of the coupon bonds he owned. He was directed to furnish later the serial numbers of all such 31.2 cent bonds of the irst issue. It was such bonds that the Continuetal company bought with its profits in oil deals and part of which Harry F. Sinclair turned over to Will H. Hays in November, 1923, to help wipe out the republican deficit in advance of the

Spreading the web of its inquiry, the committee ordered subpoenas for Roy O. West, secretary of the republican national committee since 1924; Hower K. Galpin, chairman of the Cook county republican committee and more than a score of others prominent in business and politics in Chicago.

Plane at Houston CURIOUS CONTRASTS OFFERED IN HOUSTON STILL RAID DEATHS

HOUSTON, March 15.— (AP)-The aftermath of a prohibition en-forcement raid Wednesday in which two persons were killed, present-

REDISTRICTING OF FREESTONE COUNTY **BRINGS ON FIGHT**

FAIRFIELD, March 15.—(AP)— A stiff fight looms in Freestone county over a projected redistrictinto effect an order to redistrict the county. The order was made on petition of a number of citizens who claimed in their petition that he order places 43 per cent of the county in Precinct No. 1, in which Fairfield is situated, and leaves but 12 per cent in Precinct No. 4, in which Wortham is situated.

It is also alleged in the petition hat the rearrangement was for he purpose of eliminating certain opposing candidates to one more of the commissioners who voted for the reapportionment. One active candidate was cut out of a precinct in which he was run-

What Are You Raising Cotton For?

Fun or profit? Exercise or gain? As a speculation or an investment of time and labor?

Can you produce it for less than 17 cents a pound—the price now offered for middling cotton delivered at New Orleans next October?

Weevils and Root Rot

Weevils and root rot last year reduced the average acre yield in Texas to 126 pounds. At 17 cents a pound that would mean only \$20.42 an acre. The cost of breaking, planting, cultivating, picking and ginning, with interest on investment and wear and tear upon equipment, will be more than that.

Weevils and root rot are still with us, and under similar weather conditions will do similar damage in 1928.

There Is A Way of Profit

A crop rotation system of cotton, corn and oats on land at the Temple Experiment Station for a period of six years, brought an average profit of \$15.96 an acre. Land at the same place planted every year in cotton during the same six years brought an average profit of only \$7.33 an acre. A four-year rotation including cow peas brought even larger returns by almost entirely preventing loss by root rot.

guaranteed to cure. If you need

anything for this trouble, call by.

Mr. Farmer

Remember, when you buy John Deere Implements your troubles are over. Your repair bills are less. Your stand of cotton or corn is better -you save seed, you save chopping. You are sure of prompt repair service. Just unloaded a car of new model John Deere, K. L. Cultivators. This cultivator is so simple so easy to handle, any 10-year-old girl can plow with it and do as good work as a \$2.00 a day hired hand. Come in and look them over. From March the 19th to 24th we will have a better farm implement week. I am going to give away one John Deere Riding Cotton and Corn Planter Free. Come in and get particulars.

TRADE WITH

A. T. SMITH

A FARMER'S FRIEND

CORN PLANTING TIME

We believe that we have the best corn planter made. It the Moline Gearless Walking Planter and is also equipped to plant cotton. We also have a very low price on this planter. See price below.

The Moline Walking Planter is a gearless planter, absolutely doing away with gears of any and all kinds. It is a double Pittman drive which does away with side draft. The Pittmans are round steel rods and are placed inside the frame where they are free from the danger of being bent and throwing the machine out of alignment. The corn seed plates are changed from the bottom side of the can and can be changed in the field without having to pour the seed out of

the can. The can is extra large and can be locked either in or out of gear.. By all means look over the Moline Gearless Walking planter before buying.

Turning to another portion of his address, Mr. Halbert spoke of each Philadelphia.

The most optimistic estimate was forward looking thing at the pres-The most optimistic estimate was that they carried fuel enough for 50 hours of flight, enough to keep them in the air until 5:40 this morning under normal conditions. But advices from ships along the Great Circle course and weather developments along the Irish coast indicated that they encountered severe storms which probably reduced their speed.

forward looking thing at the present time. He stated that livestock grazing on lands build the soil up considerably. He quoted figures showing that the soil of Texas in 1878 was making almost a Male of cotton per acre and that at the present time the yield had dropped to one-tuird of a bale per acre. He declare that the soil had been put back. He advised had been put back. He advised

due to persons in New England and New Jersey, along the route the plane might follow in its flights from Newfoundland to Philadelphia thinking they heard the motor of a plane. These finally culminated in a report that the plane had landed at Menlo Park, N. J., but this proved unfounded.

The same possibilities that huoyed up hopes for Nungesser and Coll prevailed today for the English war ace and his daring woman companion. Those were that they may have managed to reach land far off their course somewhere in the wilderness of Newfoundland or the bleak interior of Labrador.

There was also the hope that

There was also the hope that they might have landed on the ice of the dairy cattle for the farmers pack, if their fuel gave out before they reached the mainland. This hope was based on the experience of two Canadian pilots and their Eskimo guide who only a fortnight ago won their way across sixty miles of ice after a forced landing. It was eight days from the time they disappeared before the cotton cron to pur-

raise himself. Captain Cundy spoke of a numits course and had passed the coast of New Foundland undetected the clubs had sponsored such movefliers would have been heard from ments in other sections of the long before this as the whole At-
